**DUE DATES and ESTIMATED PAYMENTS:** Federal returns are due on April 15<sup>th</sup> of each year. If you are unable to file by the applicable date you **MUST** apply for an extension. Please note that we only apply for an extension if you contact us or if we have received your tax questionnaire and are not able to complete the return by the due date. State returns are due on April 15<sup>th</sup> and generally follow the federal extension dates however some states do not. When you ask us to apply for an extension we will include the state extension if we know your state of residence. Please note that most states will only grant the extension if you have paid 90% of the state tax due on the return by the original due date of April 15<sup>th</sup>. Estimated payments are due on the 15<sup>th</sup> day of April, June, September and January the following year. Most states require that you make payments to cover your estimated tax liability. If you have not made the required payments and file after the due date, even if you have applied for an extension of time to file, you will usually be penalized. We will be glad to provide you with help calculating estimated payments and provide payment vouchers upon request.

The Affordable Care Act of 2010 requires that health care coverage information be reported on the individual tax returns for 2018. There are numerous scenarios that could arise as a result of this requirement. The possibilities are far too complex and extensive to address them all here so we will provide information for the most common scenarios and request that you contact us directly with questions about YOUR situation if it falls outside of these common areas.

1. If you and your dependents were insured for all of 2018 simply check the box on the questionnaire for yourself and each of your dependents.
2. If you and/or your dependents were not insured for all of 2018 complete the ACA page indicating which months each of you had coverage along with all other required information.
3. If you and/or your dependents purchased healthcare through either a state or federal healthcare exchange provide your form 1095A and check the appropriate box on the ACA page.
4. If you received advance premium tax credits to assist with paying for your healthcare premiums purchased through the marketplace, you **MUST** file a return in order to reconcile that credit. Additionally, we will need to have the income information for all members of your household who are required to file a tax return. **It is strongly suggested that we prepare those household member returns to ensure that the information is processed accurately.**

## PROFESSIONAL EQUIPMENT

Please list **ONLY** equipment purchased with personal funds. Note, however, that the monthly funds you receive from HQ for computer equipment are considered personal funds and you should list these equipment purchases.

Most items of equipment used in your business are included in an IRS list with three broad categories: 1) Items requiring a written log to establish the business use %; 2) Items whose business use % may be documented by other methods; 3) Items not "listed" for which the business use % may be established by your conservative estimate.

The first category includes computers and any equipment attached to them -- either wired or wireless. In order to take a deduction for items in this category, you must indicate that you have in your possession a written log of the time you used the computer. There must be a separate log for each computer.

The log need only show the date, the hours/minutes the computer was used and the hours/minutes for business purposes. Equipment attached to the computer is presumed to be used the same % as the computer itself unless you can demonstrate otherwise.

NOTE: The law does allow for a representative sample in place of a complete year-long log. This sample should cover a period of at least one full month. If you have not kept the log, you can start it now and apply the result back to 2018

NOTE: If the item is 100% business use then no log is required.

The second category includes cameras, camcorders, iPods, audio recorders and players, projectors, etc. You need only to be able to testify that you have documents such as phone bills, pictures, videos, tapes, CDs, etc. that would definitely demonstrate the business use % you assign to the item.

A few items in the third group which could arguably belong to group two include assets such as musical instruments, PDAs and GPS units. The logic is that these are so directly linked to your business that the documentation is not needed.

Equipment purchases of \$250 or less are no longer depreciated. They will be expensed fully in the year purchased. This will reduce your record keeping requirements. Please group all similar equipment purchases where the individual purchase price is below \$250 by category based on the business use percent. For example if you purchased six different items where the business use percent was 75% and the total of all six items was \$350 (No single item over \$250) make one entry of \$350 with a business use of 75%.

Please review your asset list from your **2017** return (if you had assets), and list below any changes to last year's assets, including business use % or sale. Also, please list any assets purchased in **2018** along with the business use %.
